Date of birth: 03/01/1993

Address: Jerusalem, Israel

Age: 25

Level of Education: high school

Brief

- I am an open-minded, self-lerner, evergrowing individual.
- I have dealt with situations where I had no prior knowledge, and found a way to solve them.
- I have acquired most of my knowledge by myself.
- It's important for me to create something of value in my work.
- It's important for me to work in a place that's challenging, in a way that makes me grow and feel impactful.

Experience

- Jul. 2015 - Mar. 2016: QA engineer at Orbotech Ltd. I wrote tools in python and bash, did manual quality assurance tests and analyzed system performance.
- Apr. 2016 - Dec. 2016: Software developer at ESS, posted at cyberbit. In that position I developed server-side as well as client-side in several projects with different tech stacks. In some of them I were a sole developer, whereas in others I was a part of a team.
- Oct. 2016 - Present: Voluntary software developer at Beshutaf cooperative. I've written and am maintaining a web-app (MEAN stack) for assigning shifts.
- Dec. 2016 - Present: Lead software developer at Sofi cooperative. I lead web and mobile projects, the role includes architecture and development.

Technical Knowledge

- .NET - WPF, WCF
- Web - Vue, Angular, Node.js, Express, jQuery, Wordpress
- Java
- Activiti - workflow engine
- Databases - PostgreSQL, Neo4J, MongoDB, Elasticsearch
- Python - basic level of knowledge

Languages

Hebrew - my mother's tongue

English - fluently
